

### Amendments to the Claims

Claim 1 (currently amended): A ~~reconditioned~~ refrigerant storage tank labeling system having a removable labeling apparatus, said ~~apparatus~~ system comprising:  
a refrigerant storage tank; and  
a sleeve, said sleeve made of heat-shrink plastic material, removably heat ~~shrinkable~~ shrunk at least partially about the tank, said sleeve providing general labeling information regarding most recent ~~the~~ contents in the said tank and a writeable portion for providing specific information regarding ~~the~~ said contents.

Claim 2 (currently amended): The system ~~apparatus~~ of claim 1 wherein said sleeve is printed with instructional indicia.

Claim 3 (currently amended): The ~~apparatus~~ system of claim 2 wherein said instructional indicia include identification of chemical properties of said ~~the~~ tank contents.

Claim 4 (currently amended): The ~~apparatus~~ system of claim 3 wherein said instructional indicia further include a safety warning specific to ~~the~~ said tank contents.

Claim 5 (currently amended): The ~~apparatus~~ system of claim 2 wherein said instructional indicia include owner and customer information.

Claim 6 (currently amended): The ~~apparatus~~ system of claim 2 wherein said instructional indicia include MSDS contents.

Claim 7 (currently amended): The ~~apparatus~~ system of claim 2 wherein said instructional indicia includes information required by the Department of Transportation.

Claim 8 (currently amended): The ~~apparatus~~ system of claim 1 ~~in which~~ wherein said sleeve is between about ~~2 and 3 mils.~~ 0.002mm and 0.003mm in thickness.

Claim 9 (withdrawn): A method of recording information regarding a refrigerant vessel having contents, said method comprising:

marking the contents of the vessel on a heat shrink label;

applying the heat shrink label to the vessel by heat shrink thereby making the label durable and convenient to remove;

removing the label from the vessel a period of time after applying the label; and  
storing the label in a record system.

Claim 10 (withdrawn): The method of claim 9 wherein the label contains all regulatory required information regarding the contents thereby obviating the need for any labels.

Claim 11(withdrawn): The method of claim 9 further comprising: additionally marking the label after applying the label to the vessel.
